First Things First

Thank You for Your 2006 Membership in the

Dodge/Jefferson Counties Genealogical Society

We are most appreciative of your interest and support. Welcome aboard if you are a new member to the society; if you had been a member and renewed, we sincerely thank you for doing so.

This year marks the 25th anniversary of our society and we will reflect upon our past in each issue of the 2006 newsletter, all the while we plan for our future during this commemorative and celebratory year.

Two articles (pgs 3-6) in this edition of the newsletter are retrospective and, less we forget, recall where we came from. Most of us are relatively new to the society and it is proper that we recall and appreciate those that planted the seed and then nurtured its growth.

That planted seed has blossomed into the many-faceted entity we have become. Today we are blessed with increased membership and a library that is so resource-rich that one is constantly discovering new assets and new possibilities as to how to use them.

The best way to become familiar with the library is to enroll in a "Getting Acquainted" series of three classes. Another series is planned for April 22 and the particulars can be found on pages 10-12.

We realize that many cannot come to our library and know of us only through our newsletters and website. Your membership is most special. We hope the newsletters and internet site will continue to satisfy as you research your family. Be sure to let us know if (when) we fall short.
